Purpose of Work

A paragraph summarizing the motivation, background [1], goals, and expected contributions from this work should be placed here.

The paper as a whole should be placed on 8.5" x 11" (A3) paper with 1" margins on the top, bottom, and sides. The title of the paper and the section titles should be Arial 14 pt. The authors, text and figure and table captions should be Times New Roman 11 pt. The title and authors should be centered at the top of the page. The rest of the document should be justified with spacing set at Multiple - 1.15. There should be a three character indent to start each paragraph and no extra spacing between the paragraphs.

Approach

One half to three-fourths of a page detailing the technical approach used in the investigation, both theoretical and experimental, should be placed here. Sufficient detail should be provided in this section to allow the reviewers to assess the technical validity of the approach and its implementation.

Results and Significance

Three-fourths of a page to a full page analyzing the raw data from the investigation, the key results discerned from the data, and a statement of the significance of the contributions made in this work. Sufficient detail should be provided in this section to allow the reviewers to judge the validity and significance of the results, and their relevance to key issues in 3D power packaging integration.
