

Sponsorship Form

Updated March 21, 2016

Welcome to the inaugural International Symposium on 3D Power Electronics Integration & Manufacturing (3D-PEIM) which brings together the world's leading packaging and manufacturing societies and associations to address the future of integrated power electronics design. This is a different kind of conference that will address design and manufacturing from both academia and industry. With an emphasis on "physical" circuits, presenters and exhibitors will display hardware to highlight new design approaches and technologies.

As a sponsor, you will reach a very specific market with your message. We expect 150 attendees and over 40 presentations and dialogue sessions. The venue is designed for table top displays to surround the main seating area but we only have room for 13 displays. You will interact with attendees during every break and every meal and every reception. In keeping with the spirit of this event, the organizers are not allowing full size booths and have restricted exhibitors to table top displays only. Hands on demos are encouraged. Please bring product samples if appropriate.

Exhibition payment is due June 1, 2016 to guarantee a space.
Use the Registration tab on 3D-PEIM.Org website for payment.

Sponsorship Levels

There are three levels of sponsorship: Silver, Gold and Platinum. All sponsorships include one full registration (\$495/\$595 value) for the conference, corporate name noted on the website and in the program, and a table top exhibit.

Level	Price	Program Ad	Other
Silver	\$750	-	-
Gold	\$1,000	1/4 page	corporate logo displayed on website and program
Platinum	\$1,500	½ page	Gold benefits plus hall placards, main screen recognition, and acknowledged before each session

Exhibit Details

We are hosting table-top exhibits only. No full size booths or displays are allowed. The tables are 8 feet in length and standard width. Each area will also have two folding chairs that can be placed in front or behind the table. Thirteen (13) display tables will be spaced around the main meeting area. Exhibitors may bring other freestanding items such as post-up stands or literature racks. Any video or audio equipment may only be energized during designated display periods. Each exhibit will have access to a single 120 V electrical outlet via extension cord.

Shipping

If you have materials to ship for display, use the following address:

3D-PEIM
McKimmon Conference Center
1101 Gorman Street
Raleigh, NC 27606

Note that the conference center cannot accept packages on the weekend. Please plan for your shipments to arrive by June 9 to allow adequate time for processing and storage. There is no fee for storage up to 3 days.

Move In/Move Out

Exhibits must be completely installed before 12 noon on Monday, June 13. The main hall will open at 8 AM that morning. Exhibits may be removed after the last speaker on Wednesday, June 15. The main hall will be closed at 7 PM that evening.
